

## AGED VETERAN ANSWERS CALL

VETERAN OF CIVIL WAR EXPIRES AT EAST WASHINGTON STREET HOME ABOUT 10:30 O'CLOCK TUESDAY NIGHT, HIS DEATH FOLLOWING AN ATTACK OF APOPLEXY.

## THE FUNERAL TO BE FRIDAY

Henry McCammack, a pioneer resident of Putnam county, died at his home on east Washington street about 10:30 o'clock Tuesday night, his death following a stroke of apoplexy, which occurred Sunday afternoon. Mr. McCammack, who was a son of the late Mr. and Mrs. James McCammack, both old settlers of Belle Union, was born in the vicinity of that town on January 1, 1848. Mr. McCammack is survived by a widow, Mrs. Mary Rainey McCammack.

When the Civil War broke out Mr. McCammack enlisted in the 141st Indiana Volunteers and was ordered to the field of battle. After serving for some months he was taken sick and returned to his home in this county. After recuperating from his illness, Mr. McCammack again enlisted, this time joining the 115th Indiana Regiment. He served through the remainder of the war with this regiment.

After returning to the war Mr. McCammack was united in marriage with Miss America Chadd. They made Indianapolis their home for a number of years, and until the death of Mrs. McCammack. On September 19, 1888, Mr. McCammack and Miss Mary L. Rainey, a resident of Indianapolis, were married. They resided in Indianapolis for about eleven years after their wedding. They then moved to this county and for several years resided on their farm, about four miles east of this city. They lived there until about two years ago when they moved to this city, occupying a house on east Washington street.

Besides the widow, Mr. McCammack leaves one brother, Samuel McCammack, of this county, and one sister, Mrs. Ameda Hurst, of Kansas. He has many other relatives and a large circle of friends residing in the county. Mr. McCammack was the father of several children, all of whom, however, are now deceased.

Last Sunday afternoon, while Mr. McCammack was returning from the postoffice, he was stricken by the attack of apoplexy. He was assisted home. During his few days' illness, though, at no time was there much hope for his recovery. He sank rapidly and Monday and Tuesday was unable to recognize his relatives and friends. He had suffered a similar attack several years ago.

The funeral services will be held Friday afternoon at 2 o'clock at the Presbyterian church.

## ROCKVILLE TO VOTE ON SALOON QUESTION.

Court Sets Election for February 25, When Parke County Will Settle the Saloon Proposition.

ROCKVILLE, Ind., Feb. 4.—Commissioners court for the February term opened with numerous petitions for the opening of new gravel roads in Parke county, which already has more than 800 miles of fine gravel roads.

A petition was filed for an election, under the Proctor law, to determine as to whether Adams township, in which Rockville is located, should or should not have saloons for the ensuing two years. More than 20 per cent of the legal voters of the township signed the petition and there was no opposition or contest. The petition for election was granted and the election ordered for Tuesday, Feb. 25.

Jacob S. White appeared for the petitioners and Harold A. Henderson for the applicants for license.

The report of the commissioners in the case of Cassender Lewis against Alvira Lewis and others as to the distribution of the proceeds of the land sale has been made and the case stricken from the docket.

## ROSE POLY SCHEDULE OUT.

Meet Methodists in Two Contests on the Diamond.

TERRE HAUTE, Ind., Feb. 4.—Manager Raymond Buck has arranged the Rose Polytechnic baseball season for this spring. The engineers meet the DePauw nine here on April 24 and at Greencastle May 9. The Poly schedule follows:

April 17—Purdue at Lafayette.  
April 24—DePauw at Terre Haute.  
April 26—Wabash at Terre Haute.  
April 30—Franklin at Franklin.  
May 3—Earlham at Terre Haute.  
May 6—Indiana at Bloomington.  
May 9—DePauw at Greencastle.  
May 13—Hanover at Hanover.  
May 17—Franklin at Terre Haute.  
May 21—Earlham at Richmond.  
May 24—Hanover at Terre Haute.  
May 26—Wabash at Crawfordsville.  
May 30—Indiana at Terre Haute.

## ONE MILE OF ROAD TO COST \$14,000

T. J. McKEEHAN AND OTHERS ROAD IN MONROE TOWNSHIP SETS HIGH MARK FOR COST—WERE THREE BIDDERS.

## MANY BIG CUTS AND FILLS

When the county commissioners Monday awarded the contract for the T. J. McKeenan and others road in Monroe township, they gave a contract calling for the highest price ever paid for the construction of a mile of road in this county. The road is only 45 feet more than one mile in length and the contract price was \$14,444.44, or approximately \$14,000 a mile. There were three bidders for the road, both other bids being higher than the one made by O. J. Larkin, the successful bidder.

The road cuts directly through woods and fields and has never been opened. It will connect the Greencastle and Bainbridge road with the Greencastle and Filmore road. The road will go over a very hilly country, which fact explains the high cost. It is estimated that over 30,000 cubic yards of dirt will have to be moved in making the cuts and grades necessary for the highway. In some places it will be necessary to make cuts 26 feet deep and in others a fill of more than 30 feet will be made. In some places, according to Engineer Lane there is a 65-foot rise to every 100 feet. There will be several small bridges built but these will be so small as to make little difference in the construction cost. The road is to be improved by draining, grading and paving with macadam.

## DIVORCE IS DEMORALIZING

A FEDERAL COMMISSION ON MARRIAGE AND DIVORCE IS PROPOSED AS HELP TO HEAD OFF EVIL.

## MRS. W. W. PENFIELD, SECY.

A special from New York tells of the inauguration of a movement to organize against the divorce evil. The matter was discussed by the New York state marriage and divorce commission at the Aldine Club, and temporary organization was effected toward the end of bringing about uniformity of marriage and divorce laws throughout the country.

The conference was presided over by Bishop Charles Burch and was attended by prominent people in church and social denominations.

Outline of Conditions.  
The Rev. Mr. Moody outlined the conditions that made necessary the passage of uniform divorce laws throughout the country.

"The Pacific coast," said he, "has been the greatest divorce center not only of this country, but of the entire world, and in that belt of Washington, Oregon and California, the divorce center has been San Francisco. In the year 1912 alone there were granted in this country over one hundred thousand divorces. More than seventy thousand children, mostly under the age of ten years, were deprived of one or both parents by divorce. In the forty years alluded to, 3,700,000 adults were separated by divorce in the country, and more than five million persons were affected by these cases.

Mr. Moody offered a resolution to organize a federal commission on marriage and divorce in New York state to agitate and work for a uniform federal law governing marriages and divorces. The proposed organization, he said, was to be a central organization for all state commissions on marriage and divorce, which have already been formed in some states, and which would meet in convention in Chicago in May.

Bishop Burch and other members of the conference expressed a belief that great opposition would be met if an attempt were made to reach by proposed federal legislation instead of through the various state legis-

## NOEL BAUMUNK. LOSES CANADIAN HOME.

Noel Baumunk, a former Clay County man, whose home is now in Saskatchewan Province, Canada, and who with his family has been visiting his brother, George, near Salina, City, was called home suddenly Friday by the news of a fire which destroyed his magnificent country home and contents last week.

Mr. Baumunk has been prosperous in Canada and had built a very fine home, costing \$4,500, which was an ideal country home. While on his visit to Clay county he left the place in care of a competent employee. There were two cans kept in the shed which contained gasoline and coal oil and they were alike in appearance. Thinking he was getting coal oil, the hired man took gasoline and threw it into the furnace to generate a fire. An explosion followed and the house caught fire and burned to the ground. The hired man had difficulty in escaping. Mr. Baumunk carried \$2,500 insurance on the home.

Mr. Baumunk has had a very good year and is able to stand the loss. Last season he thrashed 18,000 bushels of wheat and the market price was ninety-eight and one-half cents a bushel. He has one of the finest farms in the province and is enthusiastic about the country.

It is coincident that a few years ago a Mr. Schultz went from Clay county to Canada and while on a visit to his old home the house burned to the ground.—Brazil Times.—Mr. Baumunk has numerous relatives in this county and is well known here.

## THE CHATUQUA NOW ASSURED

THE QUESTION TO BE SETTLED NOW IS WHETHER THE LINCOLN OR THE INDEPENDENT COMPANY SHALL FURNISH THE ATTRACTIONS.

## SETTLED NEXT MONDAY EVE.

At a meeting of the committee in charge of the chautauqua plans and representatives of two chautauqua companies in County Superintendent Wright's office next Monday evening definite arrangements for the event will be formulated. The contract for the chautauqua, probably, will be signed up and the preliminary arrangements made. A representative of the Lincoln Chautauqua company and another man representing the Independent Chautauqua company of Chicago, will be present at the meeting to represent their companies. Both men were here Tuesday and went over the matter with the committee. The committee will meet Friday evening and go over the two offers, and then on next Monday evening the committee will announce its choice.

The offer of the Lincoln Chautauqua company has been published in detail before and, according to members of the committee, seems the most favorable one. This company offers to take charge of all, or practically all, of the details of the chautauqua and would thereby lift a great responsibility from off the committee or the citizens. The guarantee of the sale of 600 season tickets, which number already has been pledged by citizens, represents nearly the entire work which would have to be done by local men. The tents, and all necessary equipment, with the exception of seats and lights, would be furnished by the company.

The plan of the Independent Chautauqua company, which was explained by its representatives here Tuesday evening, is altogether different. This company simply sells talent, as it were. It has a great list of talented people and will furnish these at certain prices.

The company would only contract to furnish the personnel of the program. All advertising, management, furnishing of tents, stands, etc., would fall on a committee of the citizens. This, say members of the committee, would be too big an undertaking, especially as this summer will be Greencastle's first experience with a chautauqua. Another argument which seems in favor of the Lincoln company is that to obtain the attraction is only necessary to guarantee the sale of 600 season tickets, while the Independent company demands a bond for \$1,000 signed by twenty business men, each guaranteeing \$50. The committee, however, will give both propositions careful examination and no doubt will make a wise choice.

## REAL ESTATE TRANSFERS.

Peter R. Conn to Richard Mayo, land in Madison township ..... \$ 50  
Wm. T. Scott to Dillard C. Donahue, lot in Bainbridge ..... 100  
James E. Champer to Greencastle Cabinet Co., lots in Greencastle ..... 400  
D. C. Summers to Edna D. Hand, land in Floyd township ..... 1800  
A. C. Leachman to D. C. Summers, land in Floyd township ..... 3235

Mr. and Mrs. Warren Nowgent, of Clinton Falls, spent the day here.

The case of Jones against the traction company, in which the former, a Hendricks county farmer, is attempting to obtain \$250 damages for four cows killed by a traction car went to the jury this morning. The evidence was heard Tuesday afternoon and Wednesday morning. At four o'clock this afternoon the jury had not returned a verdict.

## MRS. JAMES MATHEWS DIED IN DANVILLE, ILLINOIS.

Former Resident of This City Expires Tuesday Evening—Body to Be Brought Here for Burial.

Mrs. James Mathews, a former resident of this city, died at her home in Danville, Ill., yesterday afternoon about 4 o'clock. Mrs. Mathews was taken ill suddenly Sunday evening of hardening of the arteries and her condition grew gradually worse until her death. Mrs. Mathews is survived by her husband, a former grocer of this city, and two sons, Lee and Walter Mathews, of Danville, and one daughter, Mrs. W. H. Hawkins, of this city. The body will be brought here tomorrow, arriving on the Vandalla at 1:59 o'clock, tomorrow afternoon. The body will be taken directly to the cemetery, where short services will be held, Rev. L. A. Beard, officiating. Mrs. Mathews, who was about 76 years old, was born and reared in Putnam county. Mr. Mathews for many years operated a grocery store on the east side of the square. After removing to Danville he opened a grocery store in that town.

Short funeral services will be held at the home in Danville at 7:30 o'clock.

## Filmore Lodge Installs Officers.

Filmore Chapter, No. 186, Order of Eastern Star, has installed the following officers for the year 1913: Worthy Matron, Mrs. Rosa Sims. Worthy Patron, George Sims. Associate Matron, Mrs. Mary Priest.

Secretary, Miss Hallie Browning. Treasurer, Mrs. Mary Proctor. Conductress, Mrs. Pearl Chamness. Associate Conductress, Mrs. Elva Cowgill. Chaplain, Mrs. Pearl Brown. Marshall, Mrs. Leta Garrett. Organist, Miss Lela Sinclair. Adah, Mrs. Addei Day. Ruth, Mrs. Emma Pitchford. Martha, Mrs. Katie Bastain. Electa, Mrs. Alma Amick. Warder, Mrs. Stella Proctor. Sentinel, Mr. Enoch Proctor.

S. C. Sayers, city clerk, this morning took the \$4,000 worth of bonds recently issued by the city to the Fletcher National Bank at Indianapolis. The bank recently bid in the bonds. There was some controversy Tuesday as to the value of the bonds, a member of the bank notifying City Treasurer Arthur Reat that a technical error had made them worthless. This was erroneous, however, and the bank took the bonds this afternoon.

## MARRIAGE LICENSE.

John M. Bedwell, Terre Haute, and Vada Morey, Terre Haute.

## M'CABE BILL IS PASSED BY HOUSE

NOT A SINGLE DISSENTING VOTE IS CAST AGAINST MEASURE WHICH SEEKS TO ALLOW NON-COMMISSIONED HIGH SCHOOLS TO LENGTHEN TERM.

## NOW GOES TO SENATE

The John B. McCabe bill, introduced in the House of Representatives, which provides that a non-commissioned high school may continue its term after the grade schools of the town or township, have been closed for the year, passed the House Tuesday by a vote of 87 to 0.

The bill is fathered by the Putnam county trustees and was introduced by Representative McCabe at their request. Heretofore non-commissioned high schools could not extend their term longer than the grade schools in the same township, although commissioned and certified schools could extend their terms, as long as deemed necessary.

This worked a hardship on the non-commissioned high school pupils as in many instances their school terms were so short that it required extra years for them to complete their high school work.

The bill will now go to the Senate and there is little doubt that it will be passed there and then signed by the Governor, making it a law.

## Divorce Suit Filed.

Mrs. Luna Crowley, by her attorney, Jackson Boyd, has sued for divorce from Edwin Crowley, alleging habitual drunkenness and cruel and inhuman treatment. The couple were married on March 7, 1907, and separated on January 13, 1913. The complaint asks that the plaintiff be granted a divorce and the custody of the couple's youngest child, a daughter about one year old. The couple's other two children, the complaint asks, should be cared for by the father.

## Cards of Thanks.

We desire to thank our many neighbors and friends and others, who assisted and comforted us during the illness and death of our beloved wife and mother.

## Don't Take Chances

You run a good many chances. When you place a trust such as the handling of an estate in the hands of an individual. He may be in experienced; he may prove incompetent; he may be burdened with other duties; he may be absent from home when his presence is most needed; he may meet with an accident; become ill and die, and you can not tell how soon.

Avoid these risks by committing your trusts to a corporation like ours, who has had experience and whose charges are generally about one-half what the individual would ask for the same amount of responsibilities. Come in and let us tell you all about our methods of doing business.

## NOTICE OF PETITION TO SELL REAL ESTATE.

Eurban Page, Administrator of estate of John Miller, deceased vs. Cleatus Page, et al.

In the Circuit Court of Putnam County, Indiana, January Term, 1932.

To Frank Miller, the unknown heirs at law, legatees and devisees of Frank Miller, deceased.

You are severally hereby notified that the above named petitioner as Administrator of the estate aforesaid, has filed in the Circuit Court of Putnam County, Indiana, a petition making you defendants thereto and praying therein for an order and decree of said Court authorizing the sale of certain Real Estate belonging to the estate of said deceased, and in said petition described, to make assets for the payment of the debts and liabilities of said estate; and has also filed an affidavit averring therein that you and each of you are non-residents of the State of Indiana, or that your residence is unknown and that you are necessary parties to said proceedings, and that said petition is filed and which is now pending, is set for hearing in said Circuit Court at the Courthouse in Greencastle, Indiana, on the 6th day of March, 1932.

Witness, the Clerk and seal of said Court, this 27th day of January, 1932.

ARTHUR J. HAMRICK,  
Clerk Putnam Circuit Court.

## TOM'S GREAT VICTORY

Not a Question of Mere Dollars and Cents in This Love Affair.

By WINSTON CLIFFORD.

"Father will never consent to our marriage," Marjorie lamented tearfully.

"Why not?" Tom asked, kissing the pretty, pouting lips.

"Because he'll say that you can't support me," she cried. "And I'll never be happy with anyone else."

"Of course you won't, for I don't intend to give you a chance to try it," Tom laughed, and caught her again in his arms.

"Celebrate what?" Marjorie asked, smiling, but not seeming to object to the process in the least.

"The anniversary of our engagement," Tom remarked. "It is now 10 o'clock. At exactly 9 o'clock you promised to marry me, so our engagement is an hour old," was Tom's explanation.

"We'll never get father's consent," "Marry me without it," Tom suggested.

Marjorie shook her head. "No, I love father too well," she said slowly. "We'll have to think of something else."

"What?" Tom asked. "I'm no Napoleon of finance who with a single dollar can meet and defeat your honored sire, as the stories would call him, on Wall Street. In the first place, he doesn't move along that thoroughly himself, and in the second, I know about as much about frenzied finance as you."

"Father takes such good care of himself that I fear there's no chance of your saving his life," Marjorie put in sadly.

"To say nothing of it being a somewhat difficult task for a light-weight like me to pull off the rescue stunt with prospective father-in-law's 250 pounds," Tom grinned.

"Don't make fun," Marjorie pleaded, for it was a serious matter.

"All right, dearest, I'll try and see what he says right now," and before Marjorie could remonstrate he went into the house, for the two had been out on the veranda, and guided by the

same table with himself; in fact, to find him there at all, but he did not know that Tom was a friend of the son of the man who had originated the banquet, which would have explained his presence.

The affair passed off agreeably, the great personage departed, and some of the visitors drifted into the lobby of the hotel, Mr. Graham among them. After receiving congratulations upon his well chosen speech, which was one of the best of the evening, his attention was attracted towards a somewhat noisy group over in one corner, and seeing Tom among them he sauntered in their direction. If he had gone deeply into the reason, it would have been that he was trying to find full justification for his attitude toward the young man.

As he came up, one of the number, the son of Tom's employer, was saying tauntingly:

"Afraid to drink, are you?" Mr. Graham remembered that he had noticed that Tom's wine glasses had been turned down during the banquet.

"No," Tom said quietly, and Mr. Graham realized that Tom was not contributing to the noisy conversation of the group.

"Then what makes you a sport?" continued the young man, who had evidently been drinking too much.

"Me? Oh, I don't drink because I don't care for it, that's all. The next-day headache seems too high a price to pay for a somewhat questionable pleasure the night before," and he laughed easily, then added:

"Come on, Bob; let's go home."

"You're afraid to drink. I dare you to take a drink, just one to show you know how," and the tone was so taunting that Mr. Graham fully expected to see Tom turn with his friend into the cafe; but that young man only laughed again, and throwing his arm about the shoulder of his tempter, said quietly:

"You're coming with me," and managed to get him away from the convivial crowd.

Mr. Graham jammed his hat down on his head and went home. For a full hour he studied over the matter, with the result that the next evening he sent for Tom. When that astonished but delighted young man arrived, he told him briefly:

"Take my girl, I'm satisfied. A man who can control himself can always control others. I need you in my business."

"I need him too, father," Marjorie whispered delightedly.

With his arm about Marjorie, Tom shook Mr. Graham by the hand. "I guess we all need each other," he said happily.

## IN LONELY CORNERS

Scouts of Science Seek Strange Places of the Earth.

American Institutions Spend Sums In Exploration and Send Their Men to the Darkest Spots of the Globe.

New York.—Up on the fifth or office floor of the American Museum of Natural History, just opposite the elevators, is a bulletin board, on which are painted fifty or sixty names of persons actively connected with the institution, all of them well known and many of them famous throughout the scientific world. Opposite each name is a little movable block of wood which shows whether the owned is in or out.

Inquiry discloses that some of the "outs" are not far away, but that many of them have been absent a long time; that they are in the lonely corners of the earth and that they are not likely to be in for another year or two. These scouts of science come and go at long intervals, but there are so many of them connected with the museum that every month or so some one marks his departure or arrival on the board.

As a matter of fact such institutions as the American Museum of Natural History, the Field Museum in Chicago, the National Museum at Washington, and various European institutions are doing the largest share of the geographic exploration of the earth just at present. The plan that each follows is usually the same.

First they send out one man alone or two together, to penetrate some remote region about which nothing is known. This is really a scientific scouting party. The instructions are to move as quickly as possible, but to make a thorough survey of the scientific possibilities of the country. When the scouts come back and report then a large expedition is fitted out, arrangements being made for it to stay in the field several years. The scouts do not accompany this expedition. They are off on another reconnaissance in some other distant part of the world.

Within the last year or so, for instance, the Museum of Natural History sent E. O. Hovey to the West Indies and thence to the Chihuahuas district of Mexico to study volcanoes. I sent Henry E. Crampton on three expeditions to Tahiti and the South Sea Islands, and later to British Guiana and Mount Roraima. Frank M. Chapman has covered more than 65,000 miles in collecting materials for the

museum bird groups, he returned from Colombia recently.

Just before Prof. Andrews started on his scouting expedition after the Korean tiger, the writer asked him what he feared most in venturing into a totally unknown, unexplored region. Was it fever, or accident or hostile natives, or all those things combined?

"The only thing I ever worry about," replied Prof. Andrews, "is whether I will get enough to eat or not. On an expedition where you are traveling alone with just the smallest number of servants and going into a region that you know nothing about, you can take only a limited amount of food. For the rest you have to rely on the country."

"If you can't kill enough game or catch enough fish, or find food in some way, you're going to starve. If you have plenty to eat, you needn't worry about anything else. Broken legs, sickness, hostile natives and so on will come your way if it's down in the books that they're going to. But, no matter what else happens, you absolutely must have plenty of grub. If you don't, then you've got something big to worry about."

But whether a scout of science helps the staggering dogs to draw the sledge over snowy wastes or whether he cuts his way through the jungles of Java, the Moluccas or the Carolines, he is always meeting some other white man. Stefansson and Anderson encountered lone men of the Royal Mounted Police north of the most northerly forts of the Hudson's Bay company.

So it is that on every world and steamer they are likely to find some one they know or who knows some one they have met. Therefore, lonely as their lives are, they no sooner set foot across the threshold of civilization again than they begin to pick up the threads of gossip and adventure of others just where they dropped them two or three or five years back.

Old Bokhara Fort.

climbs the passes the avalanche thunder by. Truly, you would say, a man who has endured these things should come within sight of an earthly Paradise as his reward.

It is not quite that. So much Prof. Olufsen makes clear in the account of "The Emir of Bokhara and His Country," for though the Danish explorer was welcomed by the Emir and by many flags who helped him on his way, he does not conceal from us the under side of the romance of Bokhara. Yet one would like to preserve a little longer one of the few spots where the old order has yielded no place to new. "The Emir of Bokhara still lives behind his high crenellated walls, and the subject kings, the Begs, still keep up their old-fashioned court in the romantic, dismal castles. The meandering streets, with the flat-roofed mud houses, the mosques and medreses are not yet disturbed by houses built in the European style; Mullahs, Dervishes, Calenders and Devannahs still crowd in the sacred spots as they did centuries ago. Slowly and sedately the caravan of camels crosses the wide deserts and steppes . . . the mysticism of inclosure prevails everywhere; the gates of the towns are shut up at night, the house gates are barred against intruders; and the aversion against Christian dogs is the same as in the middle ages."

But one would not like to live in Bokhara, even if Aladdin and Badroulbadour and the one-eyed Calender were our companions. For, sad to say, these peerless creatures must have lived in an atmosphere which is saturated with the stinging dust of the plains of Bokhara; they must have drunk water that is excessively likely to provoke fever and the even more perilous affliction of the nishla, which tradition says afflicted Job. It is a small point perhaps, but sanitation in Bokhara is not known; and though beauty is common in Bokhara, it is not nearly so common as the ugliness of disease.

ELECTRIFIES U. S. GARDEN

Scientists Will Raise Vegetables by Means of Fluid in Government Garden Along Potomac.

Washington.—Dr. Lyan J. Briggs, head of the experiment section of the bureau of plant industry, is stringing electric wires over a government garden on the Potomac river for the purpose of raising plants by the aid of electricity. He will electricity onions and snapbeans, potatoes and hops. For more time Dr. Briggs has been experimenting with electricity in the cultivation of plants. Dr. Briggs will not tell just how he is going to apply electricity to the onion and to the bean, but he thinks that he will produce better vegetables at a lower cost.

JUMPS FAR FROM POLICE

Man Accused of Attacking Woman Leaps From Second Story to Escape Arrest.

Philadelphia.—With a revolver in each hand, bareheaded and barefooted, Enoch Cossen, thirty-five years old, leaped from the second-story window of his home, at Ann and Chatham streets, and escaped, just as the police entered the front door to arrest him for an alleged attack upon a woman.

He exchanged shots with the police, who pursued him, and managed to escape.

Cossen was charged with entering the store of Mrs. G. Glowatt, 2365 Ann street, and beating the woman over the head with a chisel.

## REMAINS LAND OF ROMANCE

Bokhara's Attractions Many, but Make Little Appeal to the Traveler From the West.

London, England.—Would you go on the magic carpet to the land of the Arabian Nights? It still exists. It may be found in Bokhara, that crescent-shaped land whose horns enfold the east and its mystery, and whose convexity points towards Mecca, the sacred city. But the only magic carpet to take the traveler there is the comfortable one that lies before the study fire, when, with a volume in his hand, like that of the learned traveler, Prof. O. Olufsen, he may make use of the professor's account of Bokhara to whip up the steed of his own imagination. Otherwise he will find a journey through Bokhara chequered with as many perils and hardships as befell immortal Sinbad. On the highlands of Bokhara which affront the Pamirs, the wind pierces the bones, the frosts crack the skin that the sun has scorched, the breath of the traveler comes in gasps as his lungs pant in the thin air; on glaciers his feet strive to maintain a foothold; and as he

climbs the passes the avalanche thunder by. Truly, you would say, a man who has endured these things should come within sight of an earthly Paradise as his reward.

It is not quite that. So much Prof. Olufsen makes clear in the account of "The Emir of Bokhara and His Country," for though the Danish explorer was welcomed by the Emir and by many flags who helped him on his way, he does not conceal from us the under side of the romance of Bokhara. Yet one would like to preserve a little longer one of the few spots where the old order has yielded no place to new. "The Emir of Bokhara still lives behind his high crenellated walls, and the subject kings, the Begs, still keep up their old-fashioned court in the romantic, dismal castles. The meandering streets, with the flat-roofed mud houses, the mosques and medreses are not yet disturbed by houses built in the European style; Mullahs, Dervishes, Calenders and

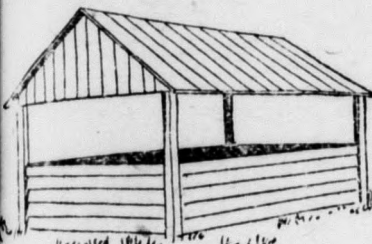

# FARM AND BEES

## GOOD MANURE SHED NEEDED

Protection Should Cover a Door at End of Alley Back of Stall—Much Fertilizer Saved.

A shed may easily be built at one end of the barn for the gathering and protection of manure against the weather. The shed should cover a door at the end of the alley behind the stalls, and the floor of the barn arranged with a drop that all manure, both liquid and solid, is caught and easily moved toward the door and this shed. If the fields are dry enough the manure spreader may be driven under the shed and loaded directly from the barn door.

If the fields are too wet for use of the spreader then the manure may be scooped from rain and consequent waste. The only thing that could be added to this shed to make it perfect is its use would be a concrete floor with a cistern into which all the liquid manure could drain. In the

A Good Manure Shed.

absence of this use of straw for bedding whenever possible, as this will serve to absorb practically all of the liquid part of the manure.

Taken in the aggregate, there can be no question that thousands of dollars' worth of valuable fertilizer is wasted each year through loss of liquid manure and through the leeching of manure piles that are stored in the barn yards without shelter. The question of the best method in which to preserve the liquid manure is well worthy of study.

The Agricultural College of Manhattan, Kan., has its large barn yard paved with stone, which drains to a central cistern, where all the liquid manure is collected and later pumped out for distribution on the grass and other crops.

## BULLETIN OF HONEY PRODUCT

Circular of Particular Interest to Bee Keepers Issued by the Department of Agriculture.

Farmers Bulletin No. 503, United States department of agriculture, has recently sent out a bulletin on comb honey that will be of particular interest to bee keepers. It is by George B. Demuth, agricultural assistant, bureau of entomology, and treats at considerable length of the comb product, analyzing the best practice and pointing out some essentials to the production of maximum crops of the best grades.

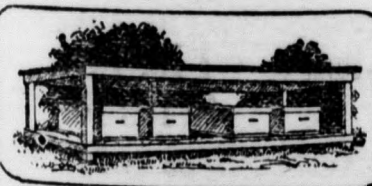

The bulletin is mainly an argument in favor of the production of attractive, high quality comb honey, and since this combination can only be secured in rather limited areas, it is urged that those only who are so favored by location will find it profitable to run to comb honey.

The bulletin also calls attention to the fact that the tendency in bee keeping is decidedly toward the production of extracted, rather than comb honey, and it says, if the general public finally becomes convinced of the purity and wholesomeness of extracted honey, it will become a staple article of food. "Present tendencies, therefore, emphasize the desirability of comb honey of the most attractive appearance possible."

## PROTECTION FOR BEE HIVES

Covered Stand Found Satisfactory for Winter and Summer and for Interchange of Chambers.

The stand, shown in the illustration, will do very nicely for both winter and summer. The back and ends may be boarded up and the hives packed with leaves for winter. If made 7 feet long and 2 feet wide it will accommodate four hives. The hives are set in two pairs with a space between each of

Covered Hive Stand.

the pairs the width of a hive. This is convenient when making the spring interchange of brood chambers. The 2x4-inch stiles on which the hives rest are 1 1/2 and 2 inches from the ground, the rear sill being the highest. The roofs of the stands are made of light half-inch boards, and are high enough above the hives to allow of necessary tiering up and easy handling of supers.

## IRISHMAN KNEW THE ANSWER

Couldn't Furnish Thousand Knot-holes Because Brewery Wanted Them for Bung-holes.

An Irishman was newly employed at a lumber office. The proprietors of the company were young men and decided to have some fun with the new Irish hand. Patrick was duly left in charge of the office, with instructions to take all orders which might come in during their absence.

Going to a nearby drug store they proceeded to call up the lumber company's office and the following conversation ensued:

"Hello! Is this the East Side Lumber company?"

"Yes, sir. And what would ye be havin'?"

"Take an order, will you?"

"Sure. That's what I'm here for."

"Please send us up a thousand knot-holes."

"What's that?"

"One thousand knot-holes."

"Well, now, an' ain't a bloomin' shame? I'm sorry, but we are just out."

"How's that?"

"Just sold them all to the new brewery."

"To the brewery? What do they want with them?"

"By golly, an' they use them for bung-holes in barrels."—Delleneator.

## The Wonder of It.

"I wonder what is the trouble across the street?"

"Wait here a moment and I'll go and try to see."

"No, please, dear, don't. I'm afraid you may get hurt in the crowd."

"I'll be careful not to get in where the trouble is. Stay right here, and I'll be back in a minute."

"Well, what is it? The crowd seems to be more excited than it was when you went over. How long you stayed?"

"It's nothing much. There's a moving picture show over there, where they are advertising a film which shows a modern society woman feeding her own baby."

## NO WONDER.

"Me brudder makes good money."

"Does he?"

"Yes; he's workin' in de mint."

## Tragedies Told in Headlines.

"River Cuts New Channel; Moves Farmer Lushwell Over Into Dry Country."

"Fat Man's Bicycle Breaks When Starting Down Long Hill."

"The Rev. Mr. Simpson Stirs Up Nest of Bumblebees; Man with Moving Picture Machine Happens Along and Gets Good Film."

"Man in Trouble Hunts Vainly for a Friend; Is Copy Reader on Daily Thunderbolt?"

"They Were Not Mushrooms; Doctor Arrives Just in Time."

"Young Man Loses Sweetheart; His Younger Brother Had Sprinkled Red Pepper on the Candy."

## Neighboring Advice.

Two East side men, neighbors, sat on their porches one pleasant afternoon recently, when a child who lived next door to one began emitting a series of shrieks that could be heard all over the neighborhood.

"My, but I wish there was some way to put a stop to that," said the man "next door." "I got it all day long when I'm at home."

"Why don't you file a court action against him?" asked the neighbor.

"How could I?"

"Easily. Proceed under the city ordinance which prohibits open mufflers."—Kansas City Journal.

## Seeking Knowledge.

The Professor—A species of white ants, called termites, is noted for its high calls or dwellings. If the houses of men were proportionately high, size for size, the humblest cottage would be a mile in height.

The Student—Now, professor, will you please figure it out and tell us proportionately just where the roof of the modern skyscraper would be?

## All at Sea.

"My friends," fervently exclaimed one of the temperance spellbinders in the recent campaign for local option in an up-state county, "if all the saloons were at the bottom of the sea, what would be the inevitable result?"

And from the rear came the answer: "Lots of people would get drowned."—Michigan Gargoyle.

## The Wretch.

"I am afraid my husband is lending a double life."

"Heavens! What has aroused your suspicions?"

"He sneaked fifty cents out of his pay envelope last week, and tried when I found it out, to make me think he had done it by mistake."

## FOR THE DEPARTED

Cleveland Plans Unique Mausoleum 21 Stories High.

Dr. Michel Declares He Has Discovered Secret of Embalming Substance That Was Used in Ptolemy's Time.

Cleveland, O.—That antique gentleman who said "history repeats itself" might be interested in the plan proposed by Dr. G. H. Michel, 3808 Prospect avenue, for disposal of the dead.

Michel, a bachelor of science in the University of Marseilles, and who claims to have rediscovered the secret by means of which the ancient Egyptians preserved the bodies of those they revered, offers the idea of a public mausoleum twenty-one stories high, with crypts for 27,000 bodies, to supplant the unsanitary cemetery, which, by reason of the space, is, he says, rapidly becoming impractical.

The scheme as outlined, especially for the present use of the congested cities of New York and Chicago, provides that the mausoleum be pyramidal in construction, like those of old Egypt.

Should it ever be adopted tourists will not have to go to the land of Anubis to see Cheops, but merely lotus and the Nile and the dog-headed take a trip to any metropolitan cemetery. Consequently, it may be that Dr. Michel's idea will meet with opposition from Cook's and other tourist agencies.

The undertakers of the Ptolemy's time stored away the great and beautiful of their land, for future reference (the reference being to the uncertain date of a trombone solo). As ancient kings and queens, courtesans and beautiful slaves were swathed in bandages, immersed in secret oils, unguents and pitch calculated to enable frail mortality to withstand the ravages of centuries, so we of this day may actually immortalize, if we follow Michel's advice.

It may be argued that Lillian Russell, Sarah Bernhardt and other of our stage favorites, not to mention some of our Republican statesmen, will not need extraneous aids to preservation—that they are perennial.

Then the Carnegie institute might arrange for a foundation having as its purpose the mummification by Dr.

Michel's method of ex-presidents and their entombment in pyramids or great Sphinxes like the Pharaohs' builded for themselves. Needless to say this would be after they were unable to draw the pension provided.

Hitherto the chief objection to interment in mausoleums has been the necessity of a disinfecting plant, the savant points out.

By preparing the bodies with his special embalming fluid, before placing them in the crypt, the necessity of a disinfecting plant is obviated, he says, for if the bodies are treated according to his directions, decomposition will be no more possible than in a marble statue.

## DUCKS TRAPPED IN CRUDE OIL

Unable to Distinguish It From Water, They Cannot Rise—Product Is Ruined by Dead Bodies.

Tampico, Mexico.—Wild ducks are causing losses aggregating many thousands of dollars to the oil operators of the fields in the Tampico territory.

Owing to the inadequate steel tank storage facilities, many of the oil producers have been forced to build earthen tanks to care for the big output of crude oil. Some of these earthen reservoirs contain as much as 2,000,000 barrels of the product.

When the present wild duck season opened it was found that the fowls were apparently unable to distinguish the lakes of oil from water, and as a result they settled upon the placid surface of the oil reservoirs in great numbers. The oil is thick and heavy, and the ducks were unable to fly when their feathers became saturated with it. As a result the trapped ones have died by thousands, greatly impairing and in some cases ruining the oil.

## Man's Poverty Is Blamed.

Beverly, N. J.—Because she married Charles E. Roberts, a poor man, the parents of Miss Albertine Bidwell, society girl, have asked for an annulment of the marriage.

## 400 Pound Turtle for Soup.

New York.—A 400 pound turtle that will go to make soup at a banquet was brought here from Bermuda.

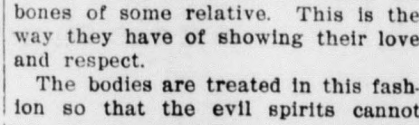

## TRIBE'S ODD BURIAL SERVICE

Adaman Islanders Drop Corpses Into the Sea Until Nothing but Bones Remain.

Kimberly.—Strange is the burial it is the custom of the islanders to service among the Adaman islanders drop the bodies of their parents into the sea at the end of ropes and leave them there until nothing remains but the bones, which they then gather and hang from the roofs of their huts.

It is a common custom for a relative to sit by the hour and watch the bones of some relative. This is the way they have of showing their love and respect.

The bodies are treated in this fashion so that the evil spirits cannot

Watching at a Grave.

tease and pinch them. All that is left are the dried bones, and these are placed high so that if the evil spirits wander into the huts they will have a hard time to find them. If a bone is carried away it means some bad spirit has seized it, and this means that some terrible calamity will befall the family.

In the Katanga district of central Africa when a chief and his wife die, there is great feasting and celebrating. Some of these festivals last three or four days. After the bodies are laid to rest with dancing and rejoicing because they are going to rule over a higher sphere their relatives and friends do not depart until they leave one or more chairs and a supply of clothes. This is done because the souls are expected to come out and wander about their graves.

## TIED ACROSS HORNS OF COW

Animal Runs Away and Tramples and Cruelty Young Woman—Farmer Is Accused.

Winnipeg.—Peter G. Hanson, a farmer at Grieson, 80 miles northwest of Winnipeg, is sought by the Manitoba police, who accuse him of tying a young woman to a cow's horns.

Margie Waranski, the daughter of a neighbor, is seriously injured, perhaps fatally, as a result.

The story sent here is to the effect that Hanson, who was enamored of the girl, became angry at her coldness and threatened revenge. The revenge is said to have consisted of knocking the girl unconscious and binding her firmly across the animal's horns.

The cow took fright and dashed into the bush, tearing off the young woman's clothes against the trees.

When the animal became exhausted it fell, and the girl was crushed against the earth. She was trampled under the cow's feet when it tried to arise.

Neighbors, hearing screams in the woods, cut the girl loose.

## GOT \$285 INSTEAD OF SMOKE

Shabby Stranger Asks for "Makin's" of St. Louis Guest and Gets Wrong Sack.

St. Louis, Mo.—"Mister, will you gimme the makin's?" a shabby stranger asked John Moran, a guest of the Pacific hotel, at the Union station.

Moran handed over a tobacco bag and the papers. The stranger fumbled with the sack a moment, then grumbled: "It's empty," and threw it in the gutter.

A short time later Moran felt the need of a smoke and purchased a sack of tobacco. Putting it in his pocket he discovered a second sack. He cogitated one instant and then started on a run for the point where he had met the stranger.

The bag thrown into the gutter was gone. It had contained \$285. Moran had given the wrong sack for the "makin's."

## BOY "HOBBO" GLOBE TROTTER

Came From Trieste as Stowaway, but Is Caught by Immigration Officials.

New York.—Richard Dunne, a thirteen-year-old globe trotter, arrived here on the steamer Oceania as a stowaway.

He had kept himself concealed and provided himself with food all the way from Trieste to South Brooklyn, but was unable to elude the vigilance of the immigration inspectors, who found him trying to sneak ashore.

The boy said he had run away from an industrial school and has been touring the far east ever since.

He said he had visited Tokio, Kobe, Hongkong, Shanghai, and he knows Egypt, Italy and southern France as well as he knows Liverpool, where he was born.

## Perfectly Plain.

"I wonder," said the youthful student, "how the prodigal son came to go broke?"

"I suspect," replied Farmer Cornstossel, "it was because he spent his time in town hangin' around talkin' about how to uplift the farmer."

## Evolution of the Mortgage.

"Farming methods have changed, haven't they?"

"Yes," replied Farmer Cornstossel. "Now a man thinks he's unlucky if he has to borrow money on his place. He used to think he was lucky if he was able to."

# CAP and BELLS

## HIS LAST ARGUMENT CARRIED

Pressing Business Matters and Other Important Things Overshadowed by Expiring Ticket.

"Yes, I really must go tomorrow."

"You can just as well stay till Monday."

"But the folks are expecting me."

"Telegraph them that you're going to stay."

"I'm sorry, but if I stay I'm liable to lose \$1,000 on the deal I told you of."

"Oh, phaw, the deal can wait a few days."

"My manager has written that my business needs my attention."

"Yes, but he is only afraid to assume a little responsibility. The business will be all right."

"There is an important meeting of the directors that I really must attend."

"Oh, they'll get along all right with you."

"You know how much I'd like to stay, but the fact is my railroad ticket runs out tomorrow."

"Well, in that case, I suppose you will have to go. Be sure and come up to see us again in a month or two."

—Puck.

## Getting at It.

"Margaret, that young man who calls on you seems to have lots of money. What's his business?"

"He's a broker, I think, father. Anyhow, he sells stocks and bonds and things like that."

"H'm! Is he successful at it?"

"Yes, very."

"His own boss, too, I presume?"

"Yes, he tells me he can go and come whenever he pleases."

"That's what I thought. Well, he can't do that around here. Just tell him tomorrow night, will you, that ten o'clock is quitting time in this house. I'm still boss here, and while he may come when he pleases, he's got to go when I say so."—Detroit Free Press.

## Amused the Warden.

Ray T. Baker, warden of the Nevada penitentiary, is abolishing with wonderful success all the brutalizing rules of the old-time prison system. Mr. Baker's prisoners lead healthy, industrious lives. They study and they work. And on leaving the prison they engage in honest labor.

"Our institution," Mr. Baker said to a reporter, "isn't much like a reformatory I once visited in my youth."

"A very strange thing happened to this reformatory back in '89," a warden said to me.

"Yes? And what was that? I asked."

"One of the prisoners," he replied, "reformed."—New York Tribune.

## IT MADE HIM SLEEP.

Playwright—I think I saw you going in to see the opening performance of my play last night, didn't I?

The Critic—Yes, and it was late when I got out—

Playwright—What? Why, the final curtain fell at 10:31 exactly.

The Critic—I know, but I overslept myself.

There is no better medicine made for colds than Chamberlain's Cough Remedy. It acts on nature's plan, relieves the lungs, opens the secretions, aids expectoration; and restores the system to a healthy condition. For sale by all dealers.

## HAPPY WOMEN.

Plenty of Them in Greencastle, and Good Reason For It.

Wouldn't any woman be happy, after years of backache suffering, Days of misery, nights of unrest, The distress of urinary troubles, When she finds freedom.

Many readers will profit by the following.

Mrs. Bertha Cook, 404 Hanna St., Greencastle, Ind., says: "Several years ago I suffered from sharp shooting pains through the small of my back and every sudden turn caused intense pains through my kidneys. A feeling of languor clung to me. I consulted a physician but he did

## The Lyric To-Night

MATINEE SATURDAY.

"The Wheel of Destiny." The prodigal son in later years finds his father in distress and takes him to his heart.

"The Cross Roads." To see the mother theme is to adore it.

"Her Friend the Doctor." The rollicking practical jokes keeps the laughs bubbling over.

## PERSONAL

Attorney B. F. Corwin went to Indianapolis this morning on legal business.

Clarence Scobee, of this city, has purchased the Hixon Blacksmith shop at Harmony.

Mrs. Ida Smith, of Owen county, is here called by the illness of her uncle, Henry McCammack.

Mrs. S. L. Caldwell, of Auburn Neb., is here for a visit with her parents, Mr. and Mrs. W. P. Wood and many friends.

Mrs. Charles J. Arnold went to Indianapolis today to attend a reception given by Mrs. Samuel Ralston and Mrs. Lew Ellingham.

The DePauw Glee Club, which is now on its mid-semester tour of the state, will be in Indianapolis this evening.

Mr. and Mrs. Alfred Hirt, who have been visiting in New Orleans, La., have gone to Tampa, Florida, to spend the remainder of the winter.

Miss Amelia Kemp, of Baltimore, Maryland, private secretary to President George R. Grose, has arrived here and has taken rooms at the home of Dr. and Mrs. S. B. Towne.

James T. Denny went to Amo this morning to attend the funeral of Mrs. Woods, whose death occurred in St. Petersburg, Florida, several days ago.

Robert White returned to Greencastle, Monday, after spending his vacation from Asbury Conservatory of Music with homefolks in Rockville.—Rockville Tribune.

Mrs. A. B. Lockridge has issued invitations to a number of ladies to a "valentine tea" to be given at her home on College street, Thursday afternoon, in honor of her sister, Mrs. F. C. Tilden.—Rockville Tribune.

Rev. Dr. Gaither, of Greencastle, preached two very fine sermons at the Methodist church, Sunday, occupying the pulpit both morning and evening. He spoke at the Sunday school, and also made short talks at each of the church services in behalf of the Methodist hospital at Indianapolis, subscriptions cards being passed. Dr. Gaither addressed the Men's Bible class in the morning, and the finance committee of the class is considering the contribution of \$250 to the hospital to establish a room in the proposed new wing.—Rockville Tribune.

A meeting to consider the question of holding a local option election in the city of Martinsville was called for the circuit court room Monday evening, but when the meeting adjourned the matter was just where it was when the meeting began. That question was not even presented for a vote, the greater part of the time being taken up in the discussion of the blind tiger situation and the condition of Martinsville under dry and wet times. A motion was presented authorizing the chairman N. H. Gana, to appoint a committee of ten to assist in gathering information for the use of the grand jury that is to meet soon, with only about ten or twelve out of the audience of fifty or sixty voting for it. The remainder of the audience did not vote either way. The drys present seemed to be of the opinion that from the character of the audience they would be outvoted if the question of holding an election was presented Monday night, as not one of the drys called for a vote on that matter; and none of the wet advocates demanded a vote. So after the chairman had given all who cared to speak an opportunity to express themselves, the meeting was adjourned.—Martinsville Reporter.

Jesse Weik went to Indianapolis, this morning, on business.

D. C. Summers and wife, well-known residents of Floyd township, were here on business today.

Oran Perkins, a large land owner of Morton, was here today paying taxes.

D. C. Summers has sold his farm in Floyd township to Edna D. Hand and has purchased the A. C. Leachman farm, which is in the same vicinity.

The zero weather is a forerunner of a good maple syrup crop—if the weather man will just furnish the necessary frosts and thaws a good "run" may yet be had this winter.

Allen Moore, who is attending the Indiana Law School at Indianapolis, won a place on the debate team of the school. He will be one of the school's representatives in a debate with the Cincinnati Law School team.

Colonel and Mrs. Weaver have issued invitations to the faculty of DePauw university for a musical on February fourteenth in honor of President and Mrs. Grose. The faculty of the DePauw School of Music will furnish the program, under the direction of Dean McCutchan.

Dr. W. R. Hutchinson has received a postal card from Jeffersonville showing the conditions of the flood in that city. The card shows numerous houses, churches and business buildings surrounded with vast stretches of water. The water is up to the second story of the houses.

Mrs. Oscar O'Hair this morning underwent an operation at the Methodist Hospital in Indianapolis. Dr. John Oliver, assisted by Dr. W. W. Tucker, of this city, performed the operation. Mrs. O'Hair rallied from the shock of the operation and, it is believed, will quickly recuperate. Mr. O'Hair is in Indianapolis with his wife.

DIVORCE IS DEMORALIZING.  
(Continued from Page One.)

atures.  
"Not in a thousand years could you move some of those western states to reform their divorce laws," the Rev. Mr. Moody answered. "And realizing that we of the west are now appealing to you of the east to help us through the federal government."

The Rev. Sidney Goldstein maintained that by raising the standard of marriage and divorce in most of the states of the country, the conscience of the nation would compel the recalcitrant states, such as South Dakota and Nevada, to fall into line. It was resolved to appoint the Rev. Dr. Samuel McCune Lindsay to be temporary chairman of an organizing committee. Mrs. W. W. Penfield was appointed temporary secretary.
